Human Heart Protein Medley

**Description**
An electrophoresis-ready solution of SDS-solubilized proteins prepared from normal tissue. Each tube of concentrate contains a specified concentration of protein isolated from whole tissue homogenates.

**Package Contents**
- 100 µl Protein Concentrate

**Storage Conditions**
- Store at −70°C.

**Form**

**Concentration**
- 10 mg/ml

**Source Information**
- Normal, whole heart from a 44-year-old male; cause of death: trauma

**Shelf Life**
- 1 year from date of receipt under proper storage conditions.

**Shipping Conditions**
- Dry ice (−70°C).

- Protein Medley User Manual (PT1602-1)

**References**

Quality Control Data

1. Gel analysis: A 1–2 µl aliquot of the Protein Medley was run on a 15% SDS polyacrylamide gel, followed by staining with Coomassie blue R-250. Multiple sharp and well-resolved protein bands were observed. There were no smears indicative of degraded proteins.

2. Western analysis: A Western blot was prepared and probed with an anti-tubulin monoclonal antibody. The expected band at 50 kDa was observed via chemiluminescent detection.

It is certified that this product meets the above specifications, as reviewed and approved by the Quality Department.
