## YPDA Medium

**Catalog Nos.**

630464

**Amount**

500 g

**Lot Number**

Specified on product label.

### Description

Powder comprised of peptone, yeast extract, and glucose in optimal proportions for growth of most strains of *Saccharomyces cerevisiae*. Small quantities of biological buffers have been added for proper pH maintenance. YPDA is supplemented with additional L-adenine hemisulfate (2.4 g/kg) when compared to YPD. 500 g of YPDA is sufficient to prepare 10 L of liquid medium (50 g/L).

### Package Contents

- 500 g YPDA Medium

### Storage Conditions

- Store at room temperature

### Expiration Date

- Specified on product label

### Shipping Conditions

- Room temperature

### Product Documents

Documents for our products are available for download at [takarabio.com/manuals](http://takarabio.com/manuals)

The following documents apply to this product:

- Yeast Media Protocol-At-A-Glance

### Quality Control Data

The following inspections were completed and confirmed:

- Powder appearance: free flowing, very fine/fluffy
- Powder color: light tan/golden yellow

The powder was dissolved at a concentration of 50 g/L, and the appearance, color, and pH were as expected.

It is certified that this product meets the above specifications, as reviewed and approved by the Quality Department.
