

HisTALON™ Gravity Columns

Catalog No.

635655

Amount

5 x 1 ml columns

Lot Number

Specified on product label.

Description

Prepacked gravity columns, each containing 1 ml of TALON® Resin, an immobilized metal affinity chromatography resin for the purification of recombinant his-tagged proteins. These columns are suitable for gravity-flow purification under native or denaturing conditions.

Package Contents

- 5 HisTALON Gravity Columns (1 ml each)

Storage Conditions

- Store all components at 4°C.

Shelf Life

- 1 year from date of receipt under proper storage conditions.

Storage Buffer

- Nonbuffered 20% ethanol

Shipping Conditions

- Room temperature

Product Documents

Documents for our products are available for download at takarabio.com/manuals

The following documents apply to this product:

- HisTALON Gravity Column Purification Kit User Manual
- HisTALON Gravity Column Purification Kit Protocol-at-a-Glance

Quality Control Data

Metal loading analysis:

Each lot of HisTALON Gravity Columns is guaranteed to have a cobalt divalent metal loading of ≥ 12 $\mu\text{mol/ml}$ of bed volume. The amount of bound cobalt is determined by atomic spectroscopy.

Functional test:

The TALON Resin in the HisTALON Gravity Columns was functionally tested using his-tagged GFPuv and the HisTALON Buffer Set (Cat. No. 635651). 1 ml of TALON Metal Affinity Resin was saturated with a bacterial his-tagged GFPuv lysate in HisTALON Equilibration Buffer (pH 7.4). The resin was then washed four times with 5 ml of HisTALON Equilibration Buffer (pH 7.4). Bound protein was eluted by washing three times with 1 ml of HisTALON

Certificate of Analysis

Cat. No. 635655

HisTALON Gravity Columns

Elution Buffer (pH 7.2). A sample of each eluant was analyzed by electrophoresis on a 12% SDS polyacrylamide gel to verify the purity of the eluted protein. The his-tagged protein is 99% of the eluted material

It is certified that this product meets the above specifications, as reviewed and approved by the Quality Department.
