

Certificate of analysis

Product Name/Description: Fruit-mate™ for RNA Purification
Cat. #: 9192
Lot #: Specified on product label
Storage Conditions: Room temperature
Expiration Date: 2 years from date of receipt under proper storage condition

Package Size: 100 ml

Package Contents: 1. Fruit-mate for RNA Purification 100 ml

Note: Storage conditions: Once opened, it should be used as soon as possible, avoiding contamination. If this product is stored at or below 20°C, a precipitate might appear. In such case, use in after dissolving the precipitate at 37°C.

Quality Control Data:

A banana sample was tested for RNA extraction in accordance with the standard protocol for Fruit-mate for RNA Purification.

Electrophoresis of extracted RNA:

The yield and size of extracted RNA showed no significant difference between this lot and the previous lot. The expected typical patterns of RNA were detected.

Absorbance ratio of extracted RNA:

A260/A280: ≥ 1.80

Genomic DNA Contamination Check:

Using extracted RNA as template, the expected target band was observed by RT-PCR (amplified size: 320 bp), but a target band was not observed without reverse transcriptase.

It is certified that this product meets the above specifications, as reviewed and approved by the Quality Department of Takara Bio Inc.
