

Certificate of analysis

Product Name/Description: Anti-Human P-cadherin, Monoclonal (Clone NCC-CAD-299)

Cat. #: M127

Lot #: Specified on product label

Storage Conditions: 4 degrees C

Expiration Date: 2 years from date of receipt under proper storage condition

Package Size: 0.1 mg

Package Contents: 1. Anti-Human P-cadherin, Monoclonal (Clone 0.1 mg

NCC-CAD-299)

Note: This product contains bovine serum albumin (BSA). For more information, contact your local office.

Source: Antibody:

Monoclonal antibody was produced from the established hybridoma obtained by fusing the mouse myeloma cell line P3U1 with spleen cells of BALB/c mouse after immunization with human epidermal carcinoma cell A431.

The monoclonal antibody was harvested from ascitic fluid.

Quality Control Data:

The lyophilized antibody was dissolved in 50 μ l of specified water. The antibody dilutions were applied for ELISA assay by colorimetric detection using a microtiter plate immobilized with human epidermal carcinoma cell

A431. The expected antibody titration was obtained.

Manufacturing Control:

Purification:

Antibody was purified by column chromatography, dissolved in 10 mM PBS, pH 7.4, containing 1.0% bovine

serum albumin, and then lyophilized.

The lyophilized antibody does not contain preservative.

It is certified that this product meets the above specifications, as reviewed and approved by the Quality Department of Takara Bio Inc.
