

High Yield PCR EcoDry™ Premix

Catalog No.	Amount	Lot Number
639276	48 rxns	Specified on product label.

Description

High Yield PCR EcoDry Premix is a convenient dry master mix that allows efficient amplification of DNA templates. When reconstituted, each tube of High Yield PCR EcoDry Premix contains all of the necessary reagents for high yield PCR, including TITANIUM™ *Taq* DNA Polymerase Mix, dNTPs, and optimized buffer. TITANIUM *Taq* combines a 5'-exonuclease-deficient *Taq* DNA Polymerase with TaqStart™ Antibody to allow automatic hot-start PCR. Simply reconstitute the mix by adding PCR-grade water along with your primers and template. EcoDry Premixes are packaged as individual 8-well tube strips with optically clear sealing caps.

Package Contents

- 2 High Yield PCR EcoDry Premix (24 rxns each; Cat. No. 639278) >> [View Components](#)

Product User Manuals
