

## pRetroX-TetOne Vector Set

**Catalog No.**

634306 (Not sold separately)  
Sold as a part of 634304 & 634305

**Amount**

Each

**Lot Number**

Specified on product label.

### Description

When used as part of the Retro-X™ Tet-One™ Inducible Expression System, the pRetroX-TetOne vector set allows for the retroviral delivery and inducible expression of your gene of interest in a wide variety of dividing mammalian cells. pRetroX-TetOne is an all-in-one vector constitutively expressing the Tet-On® 3G transactivator from the constitutive human PGK promoter in the forward orientation, and your gene of interest from the *P<sub>TRE3GS</sub>* promoter in the reverse orientation. There is no selection marker on this vector. Target cells transduced with RetroX-TetOne retrovirus containing your transgene will express high levels of your gene but, only when cultured in the presence of doxycycline.

### Package Contents

- 20 µl pRetroX-TetOne Vector (500 ng/µl)
- 20 µl pRetroX-TetOne-Luc Control Vector (500 ng/µl)

### Storage Conditions

- Store plasmids at -20°C.
- Spin briefly to recover contents.
- Avoid repeated freeze/thaw cycles.

### Expiration Date

- Specified on product label.

### Storage Buffer

- 10 mM Tris-HCl (pH 8.0), 1 mM EDTA (pH 8.0)

### Shipping Conditions

- Dry ice

### Product Documents

Documents for our products are available for download at [takarabio.com/manuals](http://takarabio.com/manuals)

The following documents apply to this product:

- Retro-X Tet-One Inducible Expression Systems User Manual
- pRetroX-TetOne Vector Information

# Certificate of Analysis

Cat. No. 634306

pRetroX-TetOne Vector Set (Not sold separately)

Sold as a part of 634304 & 634305

## Propagation in *E. coli*

- Recommended host strain: Stellar™ Competent Cells (Cat. No. 636763)
- Selectable marker: Plasmids confer resistance to ampicillin (100 µg/ml) in *E. coli* hosts.
- *E. coli* replication origin: pUC

## Quality Control Data

### Plasmid Identity & Purity

- Digestion with the indicated restriction enzymes produced fragments of the indicated sizes on a 0.8% agarose/EtBr gel:

Vector	Enzymes	Fragments
pRetroX-TetOne	HindIII	8.5 kb
	EcoRV & NruI	0.9 kb & 7.6 kb
pRetroX-TetOne-Luc Control	HindIII	10.1 kb
	BamHI & EcoRI	1.6 kb & 8.5 kb

- Vector identity was confirmed by sequencing.
- A<sub>260</sub>/A<sub>280</sub>: 1.8–2.0

It is certified that this product meets the above specifications, as reviewed and approved by the Quality Department.

### NOTICE TO PURCHASER:

Our products are to be used for **Research Use Only**. They may not be used for any other purpose, including, but not limited to, use in humans, therapeutic or diagnostic use, or commercial use of any kind. Our products may not be transferred to third parties, resold, modified for resale, or used to manufacture commercial products or to provide a service to third parties without our prior written approval.

Your use of this product is also subject to compliance with the licensing requirements, listed below if applicable, and described on the product's web page at <http://www.takarabio.com>. It is your responsibility to review, understand and adhere to any restrictions imposed by these statements.

### STATEMENT 42

Use of the Tetracycline controllable expression systems (the "Tet Technology") is covered by a series of patents including U.S. Patent # 8383364, # 9181556, European patents EP # 1954811, #2352833 and corresponding patent claims outside these regions which are proprietary to TET Systems GmbH & Co. KG. Academic research institutions are granted an automatic license with the purchase of this product to use the Tet Technology only for internal, academic research purposes, which license specifically excludes the right to sell, or otherwise transfer, the Tet Technology or its component parts to third parties. Notwithstanding the above, academic and not-for profit research institutions whose research using the Tet Technology is sponsored by for profit organizations, which shall receive ownership to any data and results stemming from the sponsored research, shall need a commercial license agreement from TET Systems in order to use the Tet Technology. In accepting this license, all users acknowledge that the Tet Technology is experimental in nature. TET Systems GmbH & Co. KG makes no warranties, express or implied or of any kind, and hereby disclaims any warranties, representations, or guarantees of any kind as to the Tet Technology, patents, or products. All others are invited to request a license from TET Systems GmbH & Co. KG prior to purchasing these reagents or using them for any purpose. Takara Bio USA, Inc. is required by its licensing agreement to submit a report of all purchasers of the Tet-controllable expression system to TET Systems.
